"We practice together as a team – we should learn together as a team. Join us for an innovative approach to learning together."

THORALF M. SUNDT, III
AATS President

"We believe better teams will lead to better outcomes. By learning as a team through this integrated program developed by AmSECT and AATS, we are eliminating silos of care and facilitating interdisciplinary communication and education which will ultimately result in better patient care."

KENNY SHANN
AmSECT President
Effective Leadership of Surgical Teams: A Mixed Methods Study of Surgeon Behaviors and Functions

Juliana L. Stone, MS,* Emma-Louise Aveling, PhD, Molly Frean, BA, Morgan C. Shields, MS, Cameron Wright, MD, Francesca Gino, PhD, Thoralf M. Sundt, MD, and Sara J. Singer, PhD

Cardiac Surgery Team Simulation Videos

We all know that technical skill is not enough in cardiac surgery; team cooperation and communication are vital to success in the operating room. In AmSECT’s Cardiac Surgery Team Simulation videos, Steven Yule PhD, an organizational psychologist and human factors specialist at the Neil and Elise Wallace (ATHOS) Center for Medical Simulation and Assistant Professor in Surgery at Harvard Medical School, evaluates five team cooperation scenarios and shares what could be improved to ensure effective communication within the cardiac surgery team.
